New Auburn Alum Gives

TTM Technologies has donated a 3D Printer to the New Auburn school. Evan Sarauer, a 2011 graduate from New Auburn, won an innovation contest and was able to select a school of his choice to receive the printer.

We are proud of you, Evan, for your continued success in the engineering field and for your generous contribution back to the students in this community.

New Staff Members at New Auburn School

Hi, I'm Nanette Goodman, the Business Education teacher and Athletic Director. I've been in the education field for the past 17 years. I've taught in Hudson for 3 years, subbed in Menomonie for a year, and taught in Plum City for the past 13 years. In Plum City, I was also the varsity volleyball coach and athletic director. I graduated high school from Stanley-Boyd and continued my education at UW-Stout. At Stout, I received 3 degrees in General Business Administration, Business Education, and Marketing Education. I was also an Athletic Trainer at Stout for four years.

I have four brothers and a significant other. I like to spend time with my family, cook, watch home improvement shows, play volleyball and spend time outside. Fun facts: I've gone skydiving before and realized my cheeks are chubby. :)

I'm ready to help and get to know the students, families, and community of New Auburn. I'm willing to go that extra step in helping students succeed. I'm also excited to be teaching transcribed classes in Accounting and

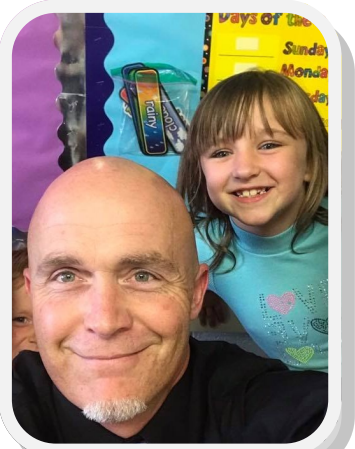

Rachel Farrell is a Special Education teacher in junior high. She is a graduate of University of Wisconsin-Eau Claire and spent time here during the 2015-16 school year when she worked as the elementary intervention specialist. Rachel has been happily married to her husband John for 8 years and counting! They have a German Shepherd named Storm and they love being Aunt and Uncle to their 12 nieces and nephews!

When asked why she loves teaching in New Auburn, Rachel said:

"I love working in my own community again and being able to give back to the school that helped shape my life!"

"Hello! I just graduated from UWEC after 5 years. I have a new kitten (Oliver) at home. I love to cook and travel. Fun Fact: I am from Milwaukee and I am the first of my siblings (there are 5 of us) to graduate college. I'm very excited for the school year to start and to meet all of my wonderful students and co-workers!"

Mr. Hutzler grew up in Chetek and lives in Tilden with his wife Kim, and children, Nolan, age 15, and Ella, age 13. He has taught 8th Grade Science in Chippewa Falls for the last fourteen years. He enjoys bowhunting and construction projects. He will officially start on July 1st.

"I am excited to join the dedicated educational staff in New Auburn. I look forward to working with the students, staff, school board and community."

"My name is Karson Rihn and I am the the social studies teacher. I graduated from Bloomer in 2012 and from UWRF in 2017 with a degree in Broad Field Social Studies. I have two older brothers and grew up on a family farm. I spent the last 3 years coaching basketball at River Falls High School. I'm excited to come back to the area and share my passion of Social Studies

"I am Katie Elmhorst and I am the elementary special education teacher. I am very excited to be a part of the New Auburn School! My husband, Rod, and I have four children who attend school here and are active with school sports and activities. Before teaching, I was able to stay home with our kids. We also live on a farm with beef cattle, one horse and a dog. I enjoy being with my family doing various outside ac-

"Hi, there! My name is Brady Rinn-Foss and I am the new Technology Education teacher. I just graduated from Stout in May with a degree in Technology Education and I'm excited to begin my career here in New Auburn! I am originally from Winona, MN which is where my entire family is from. I have 2 sisters and 2 step siblings. I enjoy mountain biking, tinkering with vehicles, hunting, and traveling. I have worked in construction, home repair, and around heavy machinery/mining equipment in the past so I look forward to bringing knowledge from those experiences to the classroom! I'm excited to teach in a small school where I can spend more time helping students on a personal level and helping them to succeed in anything they put their

"My name is Mrs. Sonnenberg and I currently live in Colfax on a family farm. This is my 3rd year teaching 6th Grade. I was previously at the Eleva-Strum School District. I love spending time with my two puppies, riding my motorcycle and doing photography. I'm excited to be teaching closer to home and being in a small community.

EXPLORING™

DISCOVER YOUR FUTURE

What is Career Exploring?

Career Exploring is a growing program in the Chippewa Valley which aims to help youth to learn more about careers that can be pursued in a variety of fields. Career Exploring programs offer multiple learning sessions that feature speakers, hand on activities, and shadowing of local professionals. There are several great opportunities for Fall 2017.

Bloomer Manufacturing Career Exploring Program

PMI LLC, Catalytic Combustion, and Bloomer Machine & Fabrication

Bloomer Ambulance Career Exploring Program

What is the Manufacturing Program About?

Three successful and Bloomer local businesses are partnering with Career Exploring to offer youth an opportunity to come on site and learn! Grades 6th-12th are encouraged to come learn about a career in manufacturing. The program runs Thursdays: Oct 19th, Oct 26th, Nov 2nd, Nov 9th at 5:30 PM. Students attending sessions will experience hands on opportunities in the areas of Welding, creating their own projects, mentorship, machine handling, and other hands on activities:

Interested students and/or accompanying adult are invited to learn more about the program at the Open House on October 5th, 2017 at 5:30PM. It will be hosted by PMI LLC in Bloomer. The Open House is free to attend, registration fee for sessions is \$25.

How to register?

Register for the program at the Open House date or Call Sydney Wolfe

715-491-8611.

What is EMS and Healthcare Exploring about?

Grades 11th-12th are encouraged to participate in learning about emergency services. The program runs once a month and provides hands on experience! Students attending sessions will get CPR certification and get a unique experience of riding along on emergency calls.

Interested students and/or accompanying adult are invited to contact Sydney Wolfe for more information or to register!

Registration is \$25, which covers insurance.

MUSIC

notes

Thank you to all who supported and assisted our first pancake breakfast fundraiser during Jamboree Days!

On Saturday, September 16, the New Auburn High School Band and Choir held a fundraiser to gain funds for our trip to Chicago in the spring. We washed cars (and a dump truck) with an asking price of \$5 each. Many of you exceeded our expectations with your support. We raised \$450 dollars! A special thank you to the Bridge Stop team for hosting us. We thank everyone who came out to support the Music Department!

SMILES AFTER THE CAR WASH!

We want to thank our community for all of their support!

Upcoming Events

Homecoming Pep Band

Friday, October 6 @ 6:15 pm

Veterans' Day Concert

Thursday, November 9 (During School Day)

Fall Fundraiser

Marey Catalogue November 9 –28

This spring we will have the opportunity to travel to Chicago. While there, both Band and Choir will be performing at the Museum of Science and Industry. Along with performing, we have the opportunity to go to Medieval Times Dinner Theatre, explore Shedd Aquarium and Navy Pier, attend a musical, and do many smaller activities during our Chicago experience. Our trip to Chicago is going to be a blast, and we all look forward to getting to spend quality time with each other. Stay tuned for upcoming updates!

KID BITS

Sick-day policy

As flu season gets under way, review the school illness policy. It will explain when to keep your youngster home (if he has a rash, is vomiting, or had a fever in the past 24 hours, for instance). Following the rules will help others stay healthy—and ensure that your child can rest, recover, and return to school as soon as possible.

Saying “I’m sorry”

Nobody’s perfect. Even good parents make mistakes. When you do, offer your youngster an apology and an explanation. *Example:* “I’m sorry I was late to your game. I wrote down the wrong time.” You’ll show her how to apologize—and she’ll see that her feelings are important to you.

Reveal the number

Let your child practice number recognition with this “magical” activity. Use glue to write numbers on a sheet of cardboard. Once dry, put plain paper over the numbers, and have your youngster rub lightly with the side of an unwrapped crayon. He can name the numbers as they appear.

Worth quoting

“Children learn to smile from their parents.” *Shinichi Suzuki*

Just for fun

Q: The more you have of me, the less you see. What am I?

A: Darkness.

Conversations build language skills

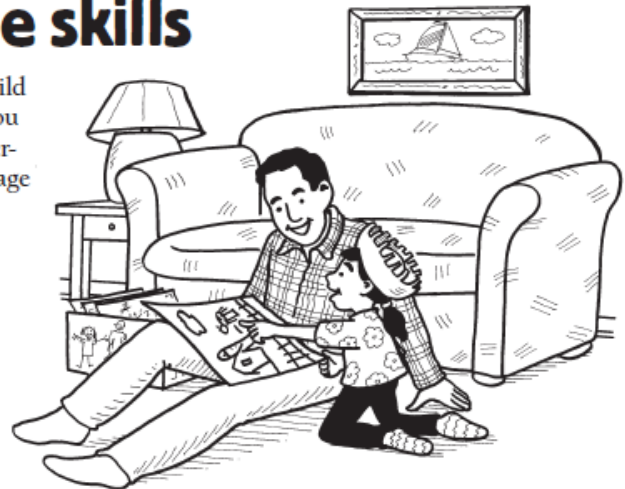

You talk to your child every day—what if you could use those conversations to build language skills and make her a better speaker and listener? With these tips, you can.

Share opinions

Let your youngster practice stating her opinion. During a family project, ask for her input. Perhaps you’re organizing your pantry. You might have her suggest which foods to put on which shelf. Or if you’re planning a T-ball game, she could decide what to use for the bases and the scoreboard.

Imagine “what if...”

Stretch your little one’s imagination while she learns to take turns during a conversation. Say “What if...,” and let her finish the sentence (“...our leopard gecko could talk?”). Then, pass around a beach ball (or a toy lizard), and the

person holding it tells what she imagines while others listen. (“The gecko would say, ‘Take me outside to play!’”)

Travel down memory lane

Children love to hear and tell stories from their lives. Start by asking your youngster to recount a memory. (“Tell me about our trip to the farm.”) Use questions to prompt her to add details. “What color was the goat?” Next, she can pose a question for you. This is a great way to work on asking and answering questions, an important skill for keeping conversations flowing.♥

A conference checklist

Parent-teacher conferences provide a glimpse of your youngster’s progress. Make the most of your meeting by preparing a list of questions to ask, such as these:

- ✓What are the most important things my child will learn this year?
- ✓How does he get along with other students?
- ✓What does he do well?
- ✓What can we work on at home?

- ✓What does my youngster like to do during free time?
- ✓What is the best way to reach you?

Tip: Tell the teacher what your child says about school. Also, let her know about any changes at home like a new baby or a grandparent moving in.♥
